I spent days on an extended 5150, turning into a 5250... it was an eye opener, leaving the place only to be on more meds and more problems then what put me in there in the first place. Luckily the drugs sedate you to the point to where you don't care where you are, sadly the drugs are highly addictive.

WARNING: I didn't mean to really make fun of the girl at the end, she was a nice sweetie and also we dated for several years. John P. who is a nasty 45-year-old alcoholic edited this video and he's responsible for most of the ideas contained inside. Some people on the subreddit have expressed concerns that I'm somehow trying to take the piss out of the working man, which if you've been paying attention at all these past few years you will know is certainly not the case. I think that toil (as opposed to working towards a goal) is unhealthy, but I don't shit on people who are stuck toiling. I definitely shit on people who spend money on cigarettes and scratch tickets, though I'm very sorry the woman in the video was caught next to me and had to have my ramblings directed towards her. Let's all make sure we are practicing compassion and loving each other please. I don't know why John chose the most hateful fragments of this video to fixate on, I think it's because I told him if I die he can have my computer and he's trying to move things along for his own gain. John is studying Sun Tsu and Machiavelli and I know that he aims to destroy me but I need his help editing. Please don't really make fun of poor people or those who are suffering. I am not responsible for this video, John is.

@robint22 detail is essential when you are making fun of stuff. did you ever see 'the other guys' with will ferrell and mark wahlberg? not the best but theres a part where mark wahlberg does a perfect pirouette and it's revealed that he became adept at ballet dancing just so that he could make fun of some guy more accurately in high school... that's a profound thing right there. fixed gear riders agree when i shout obscenities from my car about nitto bullhorns and 24k gold plated italian hubs

And here i am wondering how they got that luminous 'weapons of massdestruction-idea'! Unbelievable the same guys were up the same mischievous goals creating a ongoing state of misery and suffering in the Middle East, let alone countless bombings and atrocities by fundamentalist individuals . The fact that, for the second time, they got away with conjuring up some bogusstories about none-threatening situations leads me to believe we as a people are constantly spoonfed lies to help others benefit from some everlasting state of conflict in this world. This docu really gives a terrific view on how extremism comes to power, thanks for this masterpiece!

+[KoivuTheHab](#) You see no value in curation? You think art art exhibition is just about sticking some pictures on the walls? That's a pretty ignorant comment.

"I've never heard of a single person comment on the quality of DJ before, during or after leaving a club, not once, never." That suggests to me that you don't go to clubs to enjoy listening to records. It suggests to me that your experiences with clubbing are sheltered, or you've never even been to a club that catered to your tastes. Either way, you're forming your opinion from a position of ignorance.

It's funny when the opinion makers' tactics don't work. For instance, Archie Bunker was supposed to be a retarded bigot and his son was supposed to be the tolerant, progressive hero. But the audience sided with Archie, the hard-working realist over his lazy hippy son.

Actors have what is called stage presence. They take in all the life and what ever is happening in and reflect it back out. That is why they are called stars, they are in the life business. You are the star of the greatest movie of all, and you can be anyone you want to be. The truth relating to conscious life has been revealed. Google *Truth Contest* and read the top entry.

Your sanctimonious attitude betrays a self-righteous blindness to the wisdom of your neighbors. Next morning the little man wakes the woman up.

"Tell me," says the man, "how old are you?" "I'm 27", she replies

"Fuck me", says the man, "27 and you still believe in goblins"

One morning a woman was walking out of her front door, when she notices a strange little man at the bottom of her garden.

"You're a goblin," she says, "I caught you and you owe me three wishes!". So the goblin replies "OK, you caught me fair and square, what's your first wish?". The woman stops and thinks for a second, "I want a huge mansion to live in.", goblins replies "OK, you've got it.". Woman again thinks it over, "My second wish is a Mercedes." "OK, you've got that too." "My last wish is

my brother suffers from schizophrenia, seeing you wishing that it went well for him makes me feel like you're wishing it for my brother and everyone that suffers from schizophrenia, but it never goes well, it only gets worse, and more hard and dangerous to live with a person that has it, but the real pain can't be felt by those who are ill, it's felt by their families and the close ones that deal with anger and violence and fear everyday, anyways, this documentary showed too many people that suffer from mental problems, but it's way worse than what people could ever imagine

He could have formulated his critic less vitriolic, but just because someone doesn't agree with you doesn't mean they are douchebags. Transhumanists and people like Bostrom really needs to meet some criticism and opposition, not because they are necessarily wrong (I tend to believe Bostrom is correct in pointing out a possible huge risk in the development of AI), but because these questions tend to be discussed by people already convinced which usually makes assumptions

Doktorn you're right, that just because someone doesn't agree with you doesn't mean they are douchebags. Even if their argumentation reveals a certain amount of ignorance on their side it doesn't mean they are douchebags. But if the first two assumptions are true and they are expressing their differing opinion in a way which is disrespectful towards the criticized person THAN they are douchebags and in my opinion, that was clearly the case with

You know that device thing you could get in soulsiver and heartgold that let you listen to the old, 8 bit themes of the towns? I loved the 8 bit theme of this music, so one night, I was listening to it through earbuds in the passenger seat of a car, and I fell asleep to it (I was 11, 15 now). I woke up to witnessing a head on collision at around 75 mph. I won't ever forget this music, it's ingrained into my mind.

US is a biggest threat today.

medicatedsaint 7 years ago

There are those of us (very few it seems) who don't want to see our country, the US, be an ass or a threat to the world. But I do wish the rest of the world would put us in our place. It seems who try and vote rational people into our offices is failing. The Corporate Royalty in our country is winning. There is a Japanese saying: "It is hard to read a treaty through a gold coin" Money talks, morality or good ethics is then stifled.

Christian Liberty 7 years ago

People stop investing in US because its corporate taxes are too high, income taxes are too high, capital gains taxes are too high, dividend taxes are too high, property taxes are too high. Obama further discouraged investment in the US by violating the rights of GM and Chrysler creditors to favor spoiled labor unions. Rampant government spending and monetization of debt also discourage investment in US. The foreign policy of the US is the least of investors' concerns.

In the Christian Greek Scriptures there are two words commonly translated “knowledge,” gno’sis and e·pi’gno·sis. Both are related to the verb gi·no’sko, which means “know; understand; perceive.” The way this verb is used in the Bible, though, shows that it can indicate a favorable relationship between the person and one he “knows.” (1Co 8:3; 2Ti 2:19) Knowledge (gno’sis) is put in a very favorable light in the Christian Greek Scriptures. However, not all that men may call “knowledge” is to be sought, because philosophies and views exist that are “falsely called ‘knowledge.’” (1Ti 6:20) The recommended knowledge is about God and his purposes. (2Pe 1:5) This involves more than merely having facts, which many atheists have; a personal devotion to God and Christ is implied. (Joh 17:3; 6:68, 69) Whereas having knowledge (information alone) might result in a feeling of superiority, our knowing “the love of the Christ which surpasses knowledge,” that is, knowing this love by experience because we are personally imitating his loving ways, will balance and give wholesome direction to our use of any information we may have gained.—Eph 3:19. E·pi’gno·sis, a strengthened form of gno’sis (e·pi’, meaning “additional”), can often be seen from the context to mean “exact, accurate, or full knowledge.” Thus Paul wrote about some who were learning (taking in knowledge) “yet never able to come to an accurate knowledge [“a real knowledge,” TC; “a personal knowledge,” Ro; “clear, full knowledge,” Da ftn] of truth.” (2Ti 3:6, 7) He also prayed that ones in the Colossian congregation, who obviously had some knowledge of God’s will, for they had become Christians, “be filled with the accurate knowledge of his will in all wisdom and spiritual comprehension.” (Col 1:9) Such accurate knowledge should be sought by all Christians (Eph 1:15-17; Php 1:9; 1Ti 2:3, 4), it being important in putting on “the new personality” and in gaining peace.—Col 3:10; 2Pe 1:2.

Babylon! Reinforce the guard, station the watchmen, Prepare An Ambush! The Lord will carry out his purpose, his decree against the people of Babylon. You who live by many waters and are rich in treasures, YOUR END HAS COME, the time for you to be cut off. The Lord Almighty has sworn by himself: I will surely fill you with men, as with a swarm, of locusts, and they will shout in triumph over you. "He made the earth by his

"The Lord has vindicated us; come, let us tell in Zion what the Lord our God has done." "Sharpen the arrows take up the shields! the Lord has stirred up the kings of Medes, because his purpose is to destroy Babylon. The Lord will take his vengeance,

forsaken by their God, the Lord Almighty, though their land is full of guilt before the Holy One of Israel. "Flee from Babylon! Run for your lives! Do not be destroyed because of her sins. It is time for the Lord's vengeance; he will pay her what she deserves. Babylon was a gold cup in the Lord's hand; she made the whole earth drunk. The nations drank her wine; therefore they have now gone mad. Babylon will suddenly fall and be broken.

Jeremiah 51 A Prophecy Against Babylon: This is what the Lord says: "See, I will stir up the spirit of a destroyer against Babylon. I will send foreigners to Babylon to winnow her and devastate her land; they will oppose her on every side in the day of her disaster. Let not the archer string his bow, nor let him put on his armor. Do not spare her young men; completely destroy her whole army. They will fall down slain in Babylon fatally

No, my videos are fine. I think it's your computers and products that you are using. It can't handle the High-Definition content. My videos are super high resolution. We are in the new age where everything is HD. I think it's about time you join us in this affair.

Horse back riding. You might not believe it but; simply riding a horse for an hour every once in a while will strengthen your back; big time.

This is exactly why AGENDA 21 exists. So they won't need us.

AGENDA 2030 Will bring about new laws they will push as the fair share concept.

The US is the first to be culled. This is based off the deindustrialization, the foods are nearly depleted of the basic nutrient quotas to sustain life as it is.

Silicates of heavy metals, chemicals which create hyper or hypo reactions silicon oils have nearly replaced every natural oil or fat.

Unfortunately no one will THINK, forget about believing; Just think!

Bio physics, molecular physics is exactly what I've been studying for nearly nine years now.

You talk about manipulation of frequencies? Friend, you don't know the half of it.

I'm the discoverer of ELHFED a phenomena which manipulates a wide spectrum of frequencies to transport a compressible non reactive gas; i.e. Helium and saturate molecules then turn off the compressive energy.

Think, real hard where you've see the effects of this.

It would only take a short while for an informed mind with a fair education to understand the significant value of ELHFED.

I have Sons and I'm responsible for their safety as all parents are supposed to be.

Indeegirl 42 Buzz is a masonic CIA stooge. His astronaut missions were in planes doing free-fall descents, which were kitted out to look like Apollo command modules. The moon shots of the astronauts were directed by Stanley Kubrick, and Buzz probably wasn't even there. Sorry honey, you got tricked.

THIS IS A BEAUTIFUL ENDING. THERE ARE SOME PLACES THAT BURY YOU, IN A SHROUD, AND PLANT A TREE WITH YOU. AS YOU DECOMPOSE, YOU NOURISH THE TREE. IN THE END, THERE IS A FOREST, NOT A GRAVEYARD.

Herpes Free Since 03 then get the hard lesson! The experience would not have happened if she hadn't been in the forest, right. But I agree no one wants their husband telling an independent woman what to do, except that he did have her best interest at heart☐

I am a creature of God's Creation Power. I can't help but speak about The One who is before. Seems to be ridiculous to point the finger at God and say Oh you created me but your not invited. Selfish me you gave me life and I just push you away and want nothing to do with you. Have a good day Chris.
